

SANSKAR GUPTA

FORWARD DEPLOYED ENGINEER (FDE) & APPLIED AI LEAD

Email: sanskargupta15@gmail.com | Location: Greater London, UK

LinkedIn: linkedin.com/in/sanskargupta | GitHub: github.com/Sanskar-16

Web: sanskar-portfolio.vercel.app | Languages: English (Native), Hindi (Fluent)

Results-driven Forward Deployed Engineer @ Reply specialising in the architecting and end-to-end delivery of production-grade Applied AI pipelines, scalable DevOps configurations, and high-throughput stream processing systems. Proven lead technologist directing government-level software architectures, enterprise agentic solutions, and robust GCP environments with strict compliance and CI/CD automated integrity controls.

PROFESSIONAL EXPERIENCE

Go Reply — Senior Consultant (Applied AI & DevOps)

Jan 2026 – Present (Greater London, UK)

Hands-on AI Tech Lead for public sector government engagements, architecting production-grade generative AI platforms, agentic solutions, and secure GCP environments.

- **AI Tech Lead:** Acted as hands-on lead for key public sector engagements, guiding engineering teams on the Google ADK framework and designing production-ready agentic architectures.
- **Enterprise Platforms:** Directed end-to-end delivery of generative AI platforms and agentic systems for major hospitality and commercial retail clients, scaling chat pilots to stable production environments.
- **Identity Federation:** Designed and deployed secure, multi-provider Workforce Identity Federation configurations to integrate enterprise search connectors across separate corporate business units.
- **Reliability & Controls:** Ensured extreme system reliability by securing Google Cloud assets, enforcing strict environment segmentation, automated CI/CD releases, and rigorous security boundaries.

Go Reply — Consultant (Data Scientist & Software Engineer)

Sep 2022 – Dec 2025 (Greater London, UK)

Engineered full-stack contract analytics knowledge graphs on Cloud Spanner and built high-performance Go/gRPC telemetry ingestion pipelines for prominent motorsport organisations.

- **Knowledge Graphing:** Built full-stack contract analytics systems for global consumer brands, configuring background databases on Cloud Spanner and mapping complex document relations via Vertex AI.
- **High-Speed Pipelines:** Engineered performant React/Go web applications for motorsport clients, building high-throughput ingestion backends to parse fitness telemetry streams directly into BigQuery.
- **Infrastructure Automation:** Provisioned and maintained scalable cloud infrastructure using Terraform, Cloud Build, and VPC Service Controls to establish robust network and resource perimeters.
- **Machine Learning:** Deployed predictive models, customer churn models with Scikit-Learn, and causal impact dynamic pricing engines.
- **B2B Analytics:** Orchestrated large-scale legacy platform migrations into Google BigQuery and Looker to modernise enterprise data operations and monetise predictive business intelligence reporting.

ASK Italian — Chef De Partie

Nov 2021 – Sep 2022 (Colchester, UK)

Managed busy food production lines and kitchen team coordination to deliver premium culinary standards under rapid timeframes, helping secure the 3rd highest national branch profit on Valentine's Day 2022.

University of Essex — Resident Assistant & Student Ambassador

Oct 2020 – Jun 2022 (Colchester, UK)

RA: Resolved complex housing disputes, led community building, and championed student mental health. Ambassador: Maintained recruitment campaigns and represented the university at regional outreach and marketing events.

Lifeways Group — Support Worker

Feb 2020 – Nov 2020 (Colchester, UK)

Administered daily healthcare assistance, strict medical protocols, care routines, and meals for vulnerable service users.

TECHNICAL SKILLS & EXPERTISE

AI & Machine Learning:	PyTorch, Transformers (Hugging Face), LLM Fine-Tuning, Vector Search, Vertex AI MLOps, Scikit-Learn, Pandas, NumPy, Causal Impact Analysis
Systems & Backend:	Go, gRPC, Stream Processing, Kafka Pipelines, Low-Latency Buffers, Cloud Spanner DB, Google BigQuery, Looker Analytics, Web Audio API, WebGL
Cloud & Infrastructure:	GCP Architecture, Terraform (IaC), Cloud Build, CI/CD, VPC Service Controls, Workforce Identity Federation, Automated Environments

EDUCATION & CERTIFICATIONS

University of Essex (Colchester, UK)

Academic Higher Education & Outreach Campaigns (2019 – 2022)

Professional Certifications: Google Cloud Certified Professional Cloud Architect • Google Cloud Certified Professional Data Engineer
